

BCM One is Here to Help You.

BCM One is here to help you move your office to a remote workforce. We have all the technology capabilities to make this transition quick and smooth.

BCM One's UCaaS/Hosted Voice service provides a fully mobile-centric solution:

- We can setup a fully deployed hosted solution remotely.
- Create customized call flows, group setups and various ACD capabilities.
- Collaboration tools - audio and video conferencing with desktop share.
- File Sync and Share - secure cloud storage and multiple share privileges.

BCM One's Wireless Broadband provides a quick solution for high-speed connectivity OR to use as backup Internet connection to ensure business continuity for a remote workforce.

SIP Trunk – get SIP Trunks turned-up in 60 seconds. Great to use as a disaster recovery solution.

Microsoft Office 365 – get licenses turned up quickly for collaboration and video conferencing.

Contact your BCM One Account Manager today. BCM One can quickly get your staff setup at home!
